(b) Memo for Director of ELINT, From [redacted] DD/S&T.  
dated 17 May 1967

1. The proposed changes (Ref a) in categories of scientific and technical fields for the Contract Information System (CIS) have been carefully reviewed. It is considered they will be quite adequate to reflect OEL data inputs to the system.

2. The DOD categories (Ref b) describing R&D type efforts will also cover any project OEL may undertake. In the practical sense, however, it will probably be some time before the use of these definitions by Project Officers becomes common practice.
